

C420 MOWING BOAT

Conver mowing boats are specially developed for removing plant growth from embankments and the flow-profiles of waterways. The well thought-out design and chosen components make the mowing boats reliable in all conditions. Moreover, the C420 performs a variety of jobs. It can be equipped with a trailing knife unit, embankment cutting unit, push frame and T-front cutter. Like all our mowing boats, the C420 can be easily and safely transported using the Conver boat trailer.

- Compact allrounder
- Optimal results

- Clever design
- Compatible with multiple tools

CONVER

IT'S IN OUR NATURE

Compact allrounder

The Conver C420 mowing boat is a versatile workboat for general maintenance of inland watercourses like rivers, canals, ponds and lakes. It has a lightweight construction with a shallow draft. The hull is made of 3mm thick corrugated steel and divided into two compartments; an engine compartment and a control compartment. By dividing the hull into compartments and using the proper materials, the heat and sound is reduced for the operator and the environment.

Standard version includes

- Fully closed hull
- Lifting frame with quick hitch
- Adjustable waterproof seat
- Engine control panel with hour counter
- 4 nos. SWL lifting eyes
- Single towing eye

Options

- Toolbox incl. grease gun (excl. tools)
- Heater on engine coolant
- Umbrella
- Boat trailer
